

CORAL SKY AVIATION — WEBSITE QUESTIONNAIRE

Official Responses to All 28 Questions

SECTION 1 — WHO THE WEBSITE IS FOR

Q1 Question:

Who are the most important people you want this website to reach? Please rank them.

Answer:

The website should speak to the following audiences, ranked in order of priority:

- 1st — Aspiring Pilots (local and international) — primary audience
- 2nd — Cabin Crew Students
- 3rd — Parents of Students — especially for younger and international students
- 4th — Airlines & Industry Partners
- 5th — Investors
- 6th — Aircraft Owners needing Maintenance (AMO)

■ Internal team handling all website enquiries: Admin Team / General Manager / Reception.

Q2 Question:

Of the four programmes, which do you most want the website to push right now? Which are live today, and which are still being set up?

Answer:

All four programmes must be featured on the website. Status as follows:

Programme	Priority	Current Status
Flight Training (PPL → CPL → IR)	1st — Primary Focus	Live — operating under existing ATO licence
Cadet Pilot Programme	2nd	Enrolling Soon — Register Your Interest
Cabin Crew Training	3rd	Coming Soon — Register Your Interest
AMO — Aircraft Maintenance	4th	Coming Soon — Register Your Interest

Q3 Question:

Are your students mostly local (Gauteng / South Africa), from across Southern Africa, or international?

Answer:

Coral Sky Aviation welcomes students from **anywhere in the world**. There is no geographic restriction.

- Primary: South Africa / Gauteng — local walk-in students
- Secondary: International — students from any country worldwide
- Also: Southern Africa — Zimbabwe, Zambia, Botswana, and neighbouring countries

Pricing policy: No fixed prices shown on site. A custom quotation will be prepared in the student's local currency upon enquiry, based on the current exchange rate at that time.

■ The website must be fully international-friendly — WhatsApp contact, English only, and no ZAR-only fixed pricing.

SECTION 2 — THE SINGLE MOST IMPORTANT GOAL

Q4

Question:

When someone lands on the website, what is the one action you most want them to take?

Answer:

PRIMARY ACTION: Submit an enquiry via Email OR WhatsApp — both must be equally prominent on every page.

- ■■ Email enquiry form — visible and easy to find on every page
- ■■ WhatsApp button — floating, always visible, works globally
- Every page must have a clear ENQUIRE NOW button and a floating WhatsApp chat button at all times.

Q5

Question:

When a potential student contacts you, what happens next on your side?

Answer:

- Enquiry received via email or WhatsApp
- Admin team / General Manager responds within 24 hours
- Student receives a personalised quotation in their local currency
- Local students — invited to visit the school at Rand Airport, Germiston
- International students — WhatsApp consultation or video call arranged

SECTION 3 — PROGRAMMES & WHAT TO SHOW

Q6

Question:

For each programme, what should we display publicly regarding pricing?

Answer:

NO fixed prices anywhere on the website for any programme.

All programmes to display: “Enquire for Pricing” — a custom quotation will be provided in the student's local currency upon enquiry. This applies to all four programmes without exception.

Q7

Question:

How long does each programme take and what qualification does a student walk away with?

Answer:

Confirmed durations and qualifications:

Programme	Duration	Qualification
PPL — Private Pilot Licence	4 – 6 months	SACAA PPL Certificate
CPL — Commercial Pilot Licence	6 – 10 months	SACAA CPL Certificate
IR — Instrument Rating	10 – 12 months	IR added to CPL licence
Full Pathway: PPL → CPL → IR + Multi-Engine	15 months	Airline-Ready Commercial Pilot
Cadet Pilot Programme	Full structured pathway	CPL + IR + Multi-Engine Rating
Cabin Crew Training	3 – 4 months	Cabin Crew Certificate
AMO — Aircraft Maintenance	Varies by course	SACAA Maintenance Certification

Q8

Question:

What are the entry requirements for your main programmes?

Answer:

Standard SACAA-aligned entry requirements per programme:

Programme	Entry Requirements
Flight Training (PPL)	Min. age 17 Grade 12 / Matric Class 2 Medical English proficiency
CPL	Min. age 18 Matric Class 1 Medical PPL licence held
Cabin Crew Training	Min. age 18 Matric Medically fit English proficiency Presentable appearance
AMO / Aircraft Maintenance	Min. age 18 Matric with Mathematics & Physical Science

Q9

Question:

Is there anything that genuinely sets Coral Sky apart from other South African flight schools?

Answer:

- **Zero to CPL in 14 months** — guaranteed pathway from beginner to Commercial Pilot Licence (subject to terms and conditions)
- **Instructors who are active Airline Captains** — students learn from real-world airline professionals
- **State-of-the-art flight simulator** — real commercial aviation feel from day one
- **1:7 Aircraft-to-Student ratio** — maximum 7 students per aircraft, ensuring maximum flying time
- **1:10 Instructor-to-Student ratio** — maximum 10 students per instructor, personal attention guaranteed
- **Everything under one roof** — Flight Training, Cabin Crew, and Aircraft Maintenance in one organisation
- **Truly international student community** — students from across the world, rich multicultural environment and global network
- **Custom currency quotations** — international students receive pricing in their own local currency
- **Full airline career pathway** — PPL all the way to CPL + IR + Multi-Engine in one school
- **Based at Rand Airport, Germiston, Gauteng** — active GA airport with excellent runway access

SECTION 4 — CREDIBILITY & TRUST

Q10

Question:

What is the current status of the school today?

Answer:

Coral Sky Aviation operates from Rand Airport, Germiston — home to one of South Africa's most established flight training facilities with over **20 years of aviation training excellence** and more than **400 Commercial Pilot Licence graduates** flying with airlines across the world.

Under Coral Sky Aviation's leadership, this proud legacy continues — now with expanded programmes, international student pathways, and a bold new vision for African aviation.

■ KEY CREDIBILITY HEADLINE — USE PROMINENTLY ON WEBSITE:

"SACAA Approved | 20 Years of Excellence | 400+ Pilots Trained"

Q11

Question:

What regulatory approvals or accreditations can we mention?

Answer:

The following may be mentioned on the website:

Approval / Accreditation	Status	How to Display
SACAA ATO Licence	Active	"SACAA Approved Aviation Training Organisation"
20 Years Operating History	Confirmed	Feature prominently — headline statistic
400+ CPL Graduates	Confirmed	Feature prominently — headline statistic
AMO Licence	In Progress	"AMO Certification — Coming Soon"
Cabin Crew Accreditation	To be confirmed	"Accredited Cabin Crew Training — details coming soon"
Airline Partnerships	In Progress	"Airline partnerships — announcement coming soon"

Q12

Question:

Do you have any student testimonials, success stories, instructor bios, or graduate stories?

Answer:

- **400+ CPL graduates** — use as the primary credibility headline throughout the site
 - **Testimonials section** — design and build the section now; populate with real student testimonials once collected
 - **Instructor bios** — design the section now; names, photos, and credentials to be added once school is operational
 - **Graduate placement** — display as: "Our graduates fly with airlines across Africa and beyond — airline partnership announcements coming soon"
- Priority action before September 2026 launch: collect 2–3 written testimonials from past graduates via WhatsApp.

Q13

Question:

Your investor presentation contains revenue and profit projections. Should any of that appear on the public website?

Answer:

NO — absolutely none of the investor or financial projection information should appear on the public website.

The public website is for students, parents, and industry partners only. Instead, feature the following under a "Our Vision" section:

- ■■ World-class facility expansion — growing into a larger, dedicated aviation campus at a premier aerodrome
- ■■ Global student recruitment — welcoming aspiring pilots from every corner of the world
- ■■ Student accommodation — comfortable, safe housing for international and out-of-town students
- ■■■✈️ Experienced airline captains as instructors — attracting top-rated pilots to our team
- ✈️■ Airline partnerships & interview preparation — connecting graduates directly with airlines
- ■■ Full structured ground school — everything taught, guided, and supported in-house
- ■■ Career placement support — helping every graduate take the next step into professional aviation

SECTION 5 — VISUALS

Q14

Question:

Do you have a logo file and brand colours? Should we stick with the navy-and-gold look from your deck?

Answer:

LOGO: The attached Coral Sky Aviation logo is the ONLY logo to be used. No variations or alternatives.

NO gold. Brand colours are strictly as per the logo:

Element	Colour	Hex Code	Usage
Primary	Deep Navy Blue	#0D2B5E	Headers, headings, buttons, footer
Secondary	Sky Blue	#2B7FC1	Accents, highlights, hover effects
Tertiary	Silver / Light Grey	#AAAAAA	Logo circle, subtle accents
Background	Clean White	#FFFFFF	Main page background
Light Fill	Off-White / Light Grey	#F4F6F9	Card backgrounds, section fills

Q15

Question:

Do you have your own photos of the airport, aircraft, instructors, or students?

Answer:

No own photos available at this stage.

- Use high-quality FREE LICENSED stock photos from Unsplash, Pexels, or Pixabay — 100% legal, zero copyright risk
- Design all photo sections so real photos can be easily swapped in later without redesigning
- Real photo shoot planned once school is fully operational under Coral Sky — September 2026
- Do NOT use photos from other schools or the internet without a confirmed free licence.

Q16

Question:

If you don't have your own aircraft photos yet, are you happy for us to use high-quality stock images?

Answer:

YES — confirmed. Use free licensed stock images for:

- Cessna 172 — for PPL training sections
- Piper — for advanced training sections
- Multi-engine aircraft — for CPL / IR pathway
- Cockpit interior — for immersive feel
- Runway / airport aerial views — for hero sections

Q17

Question:

Please send us 2–3 examples of aviation images you'd specifically like to see on the site.

Answer:

The following visual style and feeling is requested:

- Sunrise / sunset runway shots — aspirational, emotional, cinematic
- Young pilot in cockpit — relatable for aspiring students
- Aerial view over South Africa — local pride and identity
- Students in ground school classroom — professional training environment
- Overall feeling: aspirational, emotional, and professional — make the viewer feel "this is where my career begins."

SECTION 6 — LOOK & FEEL

Q18

Question:

Pick the closest fit for how you want Coral Sky to come across.

Answer:

BLEND: Premium + Professional + Aspirational — all three together.

- ■ Serious enough for international students investing in a career
- ■ Welcoming enough for a young person visiting for the first time
- ■ Credible enough for airlines and industry partners
- ■ Exciting enough to make someone feel "this is where my career begins"
- ■ Reference feel: Emirates or FlySafair website — clean, bold, navy, confident, with strong calls to action.

Q19

Question:

Are there any aviation school or airline websites whose look you admire or dislike?

Answer:

INSPIRED BY: 43 Air School (43airschool.com) — clean structure and professional layout.

However, the Coral Sky website must go significantly beyond this. Most South African flight school websites are basic and outdated. Coral Sky must immediately stand out as the best in South Africa.

- ■ More visual, more animated, more premium than any current SA flight school website
- ■ Feels like an international airline website combined with a luxury training academy
- ■ AVOID: Cluttered, text-heavy layouts — the most common problem with SA flight school sites

The website must be UNIQUE, visually stunning, and loaded with high-quality smooth animations:

- ■ ■ ■ Hero section — aircraft animation on page load with parallax sky background
- ■ Counter animations — numbers counting up: 400+ Pilots, 20 Years, 14 Months to CPL
- ■ ■ Smooth scroll animations — every section fades and slides in as user scrolls
- ■ ■ Hover effects — programme cards lift and glow on hover
- ■ ■ Particle / cloud effect on hero background — feel of flying through the sky
- ■ ■ Video background option — ready to accept a real aircraft video when available
- ■ ■ Fully mobile responsive — perfect on phone, tablet, and desktop
- ■ **WEBSITE SPEED IS A TOP PRIORITY — fast loading, fully optimised, zero lag. Non-negotiable.**

Q20

Question:

Is there any wording, tone, or claim you definitely do not want on the site?

Answer:

- ■ Never mention Coral Sky is newly formed or a startup
- ■ Never mention the acquisition process or that another school is being taken over
- ■ Never show fixed prices that could become outdated
- ■ Never make guaranteed employment promises to students
- ■ Never mention investor financial figures or revenue projections
- ■ Never use "coming soon" for things that are already live and operational

SECTION 7 — FUNCTIONALITY

Q21

Question:

Which features do you need? Tick all that apply.

Answer:

Required features:

Feature	Required?	Notes
Contact / Enquiry Form	■ YES	Goes to coralskyaviation@gmail.com
WhatsApp Chat Button (floating)	■ YES	+27 63 316 6313 — always visible on every page
Click-to-Call Button	■ YES	+27 63 316 6313
Google Maps — Rand Airport	■ YES	Rand Airport, Germiston, Gauteng
Brochure / PDF Download	■ YES	Placeholder for now — brochure to be provided
Photo Gallery	■ YES	Stock photos now, real photos swapped in later
Animated Counters	■ YES	400+ Pilots 20 Years 14 Months to CPL
Interactive World Map	■ YES	Showing where Coral Sky students come from globally
Newsletter Signup	■ YES	Collect leads for future marketing
Social Media Icons	■ YES	Facebook, LinkedIn, Instagram — placeholder links for now
Online Booking / Intro Session	■■ FUTURE	To be added in a later phase
Multi-language	■ NOT YET	English only at launch

Q22

Question:

When someone submits the contact form, which email address should the enquiry go to?

Answer:

Primary Email: coralskyaviation@gmail.com

■■ Design the system so additional email addresses can be added easily in future as the admin team grows.

Q23

Question:

What contact details should be public on the site?

Answer:

The following contact details must appear publicly:

Contact Type	Details	Notes
Email	coralskyaviation@gmail.com	Primary enquiry email
WhatsApp	+27 63 316 6313	Primary contact — works globally
Phone	+27 63 316 6313	Same number — click-to-call
Physical Address	Rand Airport, Germiston, Gauteng, South Africa	TEMPORARY — will change in future
Operating Hours	Monday to Friday 09:00 to 15:00	

■■ ADDRESS NOTE:

The current address at Rand Airport is TEMPORARY. The school plans to relocate in future. The website must allow easy address updates in the CMS without requiring a full redesign.

SECTION 8 — PRACTICAL & LOGISTICS

Q24

Question:

Do you have a preferred domain name in mind?

Answer:**Preferred domains (register BOTH to protect the brand):**

- coralskyaviation.com — primary domain, international credibility
- coralskyaviation.co.za — local South African presence

■ Domain selection, registration, and hosting to be handled by the website team as per their recommendation.

Q25

Question:

Do you have any existing social media accounts we should link to?

Answer:**No social media accounts exist yet.**

Add placeholder icons and buttons for the following. Links to be activated once accounts are created:

- ■ Facebook — placeholder icon
- ■ LinkedIn — placeholder icon
- ■ Instagram — placeholder icon
- ■ WhatsApp — LIVE and working: +27 63 316 6313

■ Social media icons must appear in both the header and footer of every page.

Q26

Question:

Is there a date you'd like the website live by?

Answer:**TARGET LAUNCH DATE: 1 September 2026**

This is the planned date for Coral Sky Aviation to commence full school operations. The website must be live and fully functional on or before this date.

Q27

Question:

Who on your side is the main point of contact for feedback and approvals?

Answer:**Primary Contact: Managing Director & CEO — Coral Sky Aviation (Pty) Ltd**

Best way to reach for approvals: WhatsApp: +27 63 316 6313 | Email: coralskyaviation@gmail.com

The internal team structure for the school (names to be confirmed once operational):

Role	Status
Managing Director & CEO	PRIMARY contact for all website approvals
General Manager	Name to be confirmed once operational
Operations Manager	Name to be confirmed once operational
Admin / Reception	Front desk — handling all student enquiries

Question:

Anything else we should know?

Answer:**■ WEBSITE SPEED — TOP PRIORITY:**

The website must load fast on all devices and connections including international visitors on mobile data. All images and animations must be fully optimised for speed. Slow-loading websites are completely unacceptable.

■■ ENQUIRY MONITORING:

A dedicated internal admin team will monitor and respond to all enquiries. This is handled internally by Coral Sky Aviation management.

■■■ ADDITIONAL REQUIREMENTS:

- ■■ Professional email recommended: info@coralskyaviation.com (in addition to Gmail for internal use)
- ■■ Privacy Policy page required — POPIA compliance for collecting names and emails via contact form
- © Copyright notice in footer: © 2026 Coral Sky Aviation (Pty) Ltd. All Rights Reserved
- ■■ Google Business Profile to be set up — critical for local search visibility in Gauteng
- ■■ Mobile-first design — majority of international students will visit on a phone first
- ■■■ Use a CMS (e.g. WordPress) so the school team can update content easily without a developer
- ■■ All sections designed for easy content updates — address, team, photos, testimonials
- ■■ Terms & Conditions page recommended alongside Privacy Policy
